

Complaint to FCC

December 13, 2012

I would like to object to FCC Chairman Julius Genachowski's underhanded and democracy-destroying actions to try to have the FCC approve another media consolidation plan without adequate public notice, without adequate time for comment and without many public hearings.

I oppose this media consolidation plan because it further violates the fundamental right to have a free press to keep Americans well-informed with provable truth.

Thank you.
